About Us

With nearly two decades combined experience, Primus Medical has been providing leading-edge products to enable health care providers with innovative care for their customers. We continuously expand our manufacturing capabilities to provide our customers with high-quality products at low costs, including:

- Full Function low beds
- Bariatric beds, lifts and chairs
- Therapeutic air mattresses
- Therapeutic foam mattresses
- Lifts and slings
- Safety products and Fall Prevention
- Fitness and Rehab solutions
- Case Goods
- DME products
- Interior Design

Paying special attention to individual customer's needs, Primus Medical can offer superior customer service for your residents and staff. Every Primus Medical product must not only be easy to use and cost effective, but also must provide the end user with comfort and dignity. This is exemplified in the recent product successes of the PrimePlus® B1750 High Capacity Bed, PrimeCare® B901 High/Low Beds. Primus Medical is also capitalizing on our manufacturing capabilities and partnerships to introduce a line of fitness equipment that can be used to promote wellness and resident activity.

Primus Medical has further promoted its growth by establishing offices throughout the United States to better meet its customer needs. We continue to build global strategic partnerships in Canada, Europe, and Asia. Health care providers around the world already trust and depend on Primus Medical to meet their organizational and equipment needs; we look forward to learning how Primus Medical can provide solutions for your organization today!

SP01-PCB901

Expands into a 42" 500lb capacity bariatric bed!

Everyday presents a new challenge in caring for resident and at a time when safe working environment, quality of care, and cost consciousness are at a premium. Your equipment needs to rise to the occasion and that's where we come in! Enter the Prime Bed PCB901. A bed to handle your non-traditional bariatric patient; a person who needs a little more elbow room for comfort and dignity. An additional benefit is a more workable surface for repositioning and care by staff and faculty.

Boasting a 500lb weight capacity and the ability to EXPAND from 35" to 42" wide and 76" to 84" in length, the PCB901 can meet and exceed the rigorous challenges of resident care in today's industry. Primus Medical strives to develop and produce a complete and tactical product focusing on reducing cost and maintaining a "Best in Class" standing. This can be surmised in one word; synonymous with Primus Medical: Quality.

Mission Accomplished.

SP01-PCB601

42" capable 450lb capacity low bed

Looking for that entry level bed pricing but don't want the minimalist features associated with the cost? The PrimeCare® PCB601 is the solution to your problems. Sustaining a 450lb weight capacity and an optional 42" expandable deck, the PCB601 shares all the basic features of its sister bed the PCB301. The comparison ends there as the PCB601 moves up a notch offering elements commonly found only on more expensive beds. An advanced caster locking system is employed for one touch operation. Other premium options include the ability for embedded staff control and a battery backup system.

**The Primus Medical Freedom Rise*
Sleep**

The FreedomRise™ pairs traditional comfort with advanced adjustability for a restful night's sleep. Choose to lay flat similar to the bed you have been sleeping on your entire life or adjust the head and foot sections for a custom sleep position.

Sit

The FreedomRise™ can stop in numerous chair positions for the perfect angle to do many of your favorite activities. The FreedomRise™ allows you to read, watch TV, play cards, or socialize with friends and family with added comfort.

Rise

The FreedomRise™ helps you get up and out of bed to live your life on your own terms. The intuitive two-button operation takes you from a restful night's sleep to a comfortable chair to a standing position to let you go about your daily activities.

- Caster Steering locks
- Locking casters
- Heavy duty welded steel construction
- Pearl gray finish
- Non marring surface on transporter feet

SP01-TRANSPORT

Easily move a bed around a facility

The PrimeCare® transporter allows ease of mobility when relocating a bed within a facility or home setting. This is accomplished by hooking the bed transporter to your low bed, lowering and using the long arms of the transporter for leverage to pivot the bed onto its side. The Prime Care® transporter installation can be completed by one person in around 5-10 minutes and can also be moved by one person aswell.

High Capacity/ Bariatric Bed

The Prime Plus B2000 is our top of the line bariatric expandable bed. Featuring the highest rated, 1000lb weight capacity and a 54" width expansion; the B2000 leaves no individual without room and comfort and dignity. The wide frame also allows for family to share bedspace with smaller patients as well. Thick padded, one button assist rails provide comfort and safety. One touch width expansion provisions easily adapt to mattress changes and eases the duty of the caregiver. Oversized head and foot boards feature literature pockets and easily accept air mattress blowers and scale provisions. With optional scales, assist rails, and trapeze attachments; the B2000 can truly do it all.

4" Bolsters

SP02-PCOV4W42 42" x 80"

5" Bolsters

SP02-PCOV4W48 48" x 80"

5" Bolsters

Promotes patient safety without the need for side rails.

The defined perimeter mattress covers offers a low intervention solution to many of the side rail restraint issues affecting facilities today. Wedge shaped foam sections line the side perimeters of the mattress, providing a gentle reminder to those lying in bed of the mattress edges and to help prevent accidental falls from the bed. Features 15" openings allow for easy patient ingress and egress. Straps with quick-release buckles easily secure the cover to the bed. Strategically placed sheet clips to hold bed sheets securely in place and comes with a removable foot bolster for patient comfort. Four Way Stretch cover consists of a waterproof urethane coating that can be wiped clean with a mild disinfectant. Meets CA #117, Section E Flame retardant standards.

* Important

This device is **NOT** a substitute for side rails or other protective devices for patients at risk of injury from falls due to unassisted bed exits. Always follow your facility's policies and procedures for patient assessment and monitoring. Never use this product with patients in physical restraints with the side rails down. Serious injury or death could occur if patient becomes suspended off mattress surface.

Air Mattresses

Low Air Loss Mattresses

AirForceOne® TRUE LOW AIR LOSS MATTRESS

Quick Specs

- **Weight Capacity 1000lbs**
- Dual modes of therapy
 - Static air loss
 - Alternating pressure and low air loss
- True low air loss technology diffuses over 100 liters of air per minute under the patient
- Unique 1 in 3 true alternation
- Waterproof and vapor permeable top cover provides low friction/shear
- Patented CPR release
- Treats up to Stage IV Pressure Ulcers

Control Unit

- Dimensions 6"L x 6"W x 10.5"H
13.5"L x 5"W x 9"H
- Weight 7-11 lbs.
- Electrical Rating 120v/60Hz
- Cycle Time Variable (3-20 minutes)
- Power Cord Harmonized Hospital Grade Plug
- Warranty 1yr

Support Surface

- Warranty 1yr
- Top Cover Warranty 90days

- Waterproof and vapor permeable top cover provides low friction/shear
- CPR release
- Treats up to Stage IV Pressure Ulcers

Control Unit

- Plug and play auto-sensing
- High airflow 1275 liters per minute
- User friendly control panel 7 segment LED display
- Max Flow mode with 15-50 second inflation
- Effective true air loss relief, pulse therapy along with continuous low air loss relief.
- Lock out key prevents tampering

Support Surface

- Warranty 1yr limited

Available Sizes

SP04-BLAL3680	Blower Driven Low Air Loss Treatment 36 x 80 x 10
SP04-BLAL3980	Blower Driven Low Air Loss Treatment 39 x 80 x 10
SP04-BLAL4280	Blower Driven Low Air Loss Treatment 42 x 80 x 10
SP04-BLAL4880	Blower Driven Low Air Loss Treatment 48 x 80 x 10

Blower Driven Low Air Loss Mattress

The LA 100 features a True Low Air Loss System. While offering up auto 5 Zone Pulse therapy and True Air Loss relief the LA 100 still remains the most affordable in the market. The combined 5 pressure zones can support up to a 1000lb patient. Plug and play auto-sensing control unit with user friendly dome key control panel. Therapeutic support surface consists of superior quality, urethane coated breathable nylon air cushions. Low friction and low shear force producing, urethane coated breathable nylon top sheet, which is liquid proof and highly vapor permeable. Complete support surface is made of superior quality materials and is modular in construction. All of the components such as manifold, tubing assembly, air cushions, top sheet, and foam base are interchangeable, and can be easily cleaned or detached for laundry. Lightweight support surface can be rolled up easily and has two handles or two shoulder straps, which can be used to carry by hand or over the shoulder. An excellent value.

Alternating Pressure Air Mattress

Generation 2 APLow50 LITER COMPRESSOR DRIVEN APM WITH ON DEMAND LOW AIR LOSS

Quick Specs

- 1000lb Weight Capacity

- Optional support strap available
- Affordable alternative to electric stand assists

- SD07-STA450 Stand Aid Transfer 450lb working load

Transfer Aid

The transport aid keeps the patient engaged and active in the transfer. Transport functions of all types are quick and require minimal caregiver assistance. Users grasp the middle bar and pull themselves up into position. A padded split seat swings out to allow loading or unloading. The seat then swings back to form a secure and comfortable seat for transport. An excellent alternative to wheelchairs for toileting. Rugged construction for years of service in acute care, nursing homes and private residences.

Common Lift Replacement Parts *(call for those not listed)*

SD07-KM-BATPAK	Replacement internal batteries for all lifts (2 required)
SD07-PM-CHGBOX	Charger unit for all lifts
SD07-PM-PENDNT	Hand control remote for all lifts

Scale

Technical Specifications

- Works with 400, 500, and 600 series full body lifts
- Will not work with other brand lifts
- Apex lifts will not accept other scales
- 0-660LB range
- Battery Operated

SD02-DSC300 Digital scale above spreader bar - fits all 400,500,600 Series Lifts

DSC200 Scale

DSC200 Digital scale provides accurate weights from 0-600lb. Also has optional Kg metric read outs. Attaches above the spreader bar of the 450E and 650HD models only. Will not work on other lift brands nor will other scales work on Apexlifts. Battery operated with easy to follow instructions. May be re-calibrated and all mounting hardware is included. Zero out function to factor the weight of the sling provides accurate patient weight.

Fall Prevention - Ghost Wireless

Wireless 'Ghost' Monitor ALARMING FALL MONITOR

SD05-TL2100G

Wireless Resident Alarm Box, check pad and low battery lights.

Warranty 1 yr

Ghost Monitor

The SMART Ghost Cord system frees caregivers from managing cords between sensor pads and the alarm monitor allowing more options for monitor placement* (even outside the room) as well as reducing tripping hazards. Moving the alarm monitor outside the room has two primary benefits: Staff members hear the alarm better and residents are not disturbed by alarm noise.

Full featured pull-string monitor

The SMART® alarm in an alarming device used in conjunction with a multitude of fall prevention products. Simple, yet effective in design the monitor will sound when the cord and trigger is pulled from the device. This can be used with our PrimeSnap® to further mitigate patient injury. When the patient falls forward out of a chair or moves away from their bed; they will separate the trigger and sound the alarm so the caregiver can prevent a fall or other risk.

Lifetime Warranty Monitor with Nurse Call Port ALARMING FALL MONITOR

Lifetime Warranty Fall Monitor

Lifetime warranty version of the TL2200PS monitor. Includes 'unbreakable' outer protective case. All standard features including nurse call port, status light, pause button,

Fall Prevention - Motion Sensors

Motion Sensor Alarm WITH SWIVEL BRACKET

SD05-TL2700

Motion alarm w/ Swivel bracket

Warranty

90 day

Motion Alarm

The TL-2700 - Motion Sensor Fall Alarm Monitor has a wide, infrared detecting area to report movement when interrupted. With a horizontal range of 26 feet, a vertical range of 10 feet and battery operated the TL-2700 Motion Detector With Alarm can be placed most anywhere in the residents room where caregivers would like to be notified of movement. The TL-2700 Stand Alone Motion Sensor alarm has an 80-90 decible level.

Motion Sensor and Receiver

SD05-TL2800

Motion sensor and receiver

Warranty 90 day

Motion Sensor

The Smart Caregiver TL-2800 Motion Sensor and Wireless Hallway Alarm is an exceptionally easy monitoring system to use. Set up is simple for the TL-2800 Motion Sensor and Hallway Alarm, just insert the batteries, place the motion sensor and wireless alarm where desired and the TL-2800 Motion Sensor Alarm System is ready to use. Place the motion sensor next to the bed or a doorway and when the sensor field is interrupted a signal is sent to the wireless alarm.

Motion Sensor and Pager ONE TO ONE SYSTEM

SD05-5102MP

Motion sensor and pager

Warranty 90 day

One to one pager system

The Smart Caregiver TL-5102MP Motion Sensor and Pager alerts the caregiver of the resident's activity via pager without disrupting residents, thanks to the silent motion sensor monitor in the resident's room. The silent resident motion sensor monitor eliminates noisy alarms that may be bothersome to residents, instead only alerting the caregiver through the pager.

Window and Door Alarm

SD05-909223

Window/Door Alarm
sold in packs of 5

Warranty 6 months

Door / Window Alarm

Prevents resident elopements. Installs in seconds with adhesive backing. Three-position switch-off, chime, alarm. Resets itself when door or window is closed. Perfect for supply closets, medicine cabinets, and doors to other "off-limits" areas. Batteries included. Replacement guaranteed for six months.

Accessories

Prime Snap INJURY MITIGATING SAFETY PIN ALTERNATIVE

SD05-PSNAP02

PrimeSnap resident alarm fastener
sold in packs of 5

Resident Fastener

The PrimeSnap® is used directly with fall monitors to attach cables/cords to patients without causing injury. Flexible construction helps to prevent sores and bruising. Soft contoured edges prevent cuts and scraping. No Pins to go through clothing, no chance of puncturing the user. Easy attachment.

SP01-BC100E

The Primus Medical Freedom Rise*

Sleep

The FreedomRise™ pairs traditional comfort with advanced adjustability for a restful night's sleep. Choose to lay flat similar to the bed you have been sleeping on your entire life or adjust the head and foot sections for a custom sleep position.

Sit

The FreedomRise™ can stop in numerous chair positions for the perfect angle to do many of your favorite activities. The FreedomRise™ allows you to read, watch TV, play cards, or socialize with friends and family with added comfort.

Rise

The FreedomRise™ helps you get up and out of bed to live your life on your own terms. The intuitive two-button operation takes you from a restful night's sleep to a comfortable chair to a standing position to let you go about your daily activities.

Simple Operation

Other types of beds have two buttons for the back rest, two more for the knee brake, and many more for its various functions. Without losing adjustability options, the Freedom Rise operates with only two buttons located on its handset – one button to go from a chair to a bed and one to go from bed to a chair and lift. Simply push and hold one button and the Freedom Rise automatically transforms from a chair into a bed.

Release your finger pressure from the button at any time to find a variety of seated chair positions for physical relief. You also can attain comfortable laying positions by partly elevating the back rest to alleviate breathing problems and elevating your legs to help with aches and pains. Finally, the chair position's lifting function helps you stand up.

PrimeMat™ Floor Mats

PrimeMat™ INJURY MITIGATING FLOOR MAT

Heel Protection

AchilEaseV2™ PRESSURE RELIEVING HEEL DEVICE

Quick Specs

- Latex Free
- Easily adjust to any height
- Designed with 4 buckles to keep it secure to the mattress
- Envelops calf and reduces pressure
- In compliance with AHRQ and NPUAP guidelines
- Waterproof cover can be cleaned in minutes without being sent to laundry

SP06-ACHILV2 AchilEase Pressure Relieving Heel Device, Reusable

PRIMUS EXCLUSIVE PATENTED PRODUCT!

Our Patented Pressure Redistribution Heel Device off-loads the pressure from the heel area while redistributing the weight of the extremity across the calf. We use state of the art contouring with Visco Elastic foam and is adjustable to accommodate size and weight requirements. This product attaches directly to the mattress or bed frame.
